

AVAILABLE OPTIONS	LITE	SMALL BUSINESS	CORPORATE	ENTERPRISE
Full suite of background checks and skills tests for a wide array of clerical, admin, professional and industrial applications. Seamlessly integrated into your administrative portal (excluding Lite, where we do your admin)	+	+	+	+
Performance DNA - Study of a sampling of existing employees to isolate the traits that differentiate your best performers from the rest of the pack, then create job patterns to identify top candidates	+	+	+	+
Social Media Attraction Package – tools to drive more of the right candidate traffic to your site, leveraging appropriate SEO and web strategies, as well as the social platforms and networks where you’re most likely to find the <i>right</i> passive job seekers.	+	+	+	+
Candidate Engagement Package – multiple, interactive landing pages to give candidates an opportunity to really understand your brand and assess their fit in your environment. May include text, images and video clips designed to inform and entice the <i>right</i> people to invest time telling you about themselves in the online first interview.	+	+	+	+
Automated EEOC tracking and reporting (US clients).	+	+	+	+
Full dashboard to manage activity across locations, with funnels, dashboards and reporting fully customizable for each admin.			+	✓
Email, notes and candidate approval loops set to include field managers at remote locations			+	✓
GoogleMap for location selection by candidate as well as statistical reporting by location/region			+	✓
Custom Reports hardwired to your specifications – we can build in your existing standard report formats for one-click report generation.			+	✓
Custom Forms built in and auto-filled. We will hardwire any forms the employee needs to complete (hiring documentation, orientation checklists, benefits forms, etc) so you have the ability to print them out with a single click, or convert them to PDF and email them to the hiring manager at a field location.			+	✓
Requisition Widget – remote generation and approval of personnel requisitions by managers and other remote users via the internet, including apps for Smartphones and BlackBerries.			+	+
