

## Specific Requirements—Specific Controls

Operate your HRV with pure simplicity. The ES series offers an array of attractive “Decora” style 12 VDC controls to meet your particular requirements. A touch-sensitive pad makes choosing operation modes intuitive and easy.

T1: 20-40-60 minutes high speed  
M1: Off, Standby, Lo, Hi  
M2: Off, Standby, Lo, 20 Lo/40 Standby  
M3: Off, Standby, Lo, 20 Lo/40 Recirculation  
M4: Off, Standby, Lo, Recirculation (Lo)

Connect ES controls in series and/or parallel in unlimited numbers

## Total Convenience: ES Lumina (NAV-561)

This versatile all in one control (12 VDC) is loaded with functions which enable you to fully maximize your comfort and optimize your H/ERV efficiency. Backlit screen and generously sized push buttons enable easy navigation through modes.

Off	Standby (Intermittent)
Continuous low speed	Continuous high speed
Continuous recirculation	20 lo/40 standby
20 lo/40 recirculation	20-40-60-min. timer
Humidity settings 30-80%	Custom-set maintenance reminders (90-day default)
Switchable humidity monitoring	

## Comfort and Versatility for Any Budget

ES Series units are compatible with our Windsor Series (24 VAC) controls or other low-volt 2-wire switches and sensors.

WIN-20: 20-minute push button timer

DSTAT-1: Humidity setting (30-80%), Continuous Low or Intermittent Operation

WIN-1: Off, Humidity setting (30-80%), Continuous Low, Continuous High, Standby (Intermittent)

Also available: 2-wire carbon dioxide and occupancy sensors.
