

Tandem Hood Termination

The Search is OVER! Is trying to find an installation location for fresh air and exhaust hoods while still meeting minimum clearances causing you headaches?

Your venting troubles are over thanks to Nu-Air's Tandem Exhaust Hood. Popular efficient sealed combustion appliances means meeting local codes for minimum venting clearances is getting more and more difficult.

- ***Simple Installation:*** Single wall penetration for both fresh and exhaust air means easy installs in less time.
- ***Robust Design:*** Constructed from temperature and weather resistant white pre-painted aluminum to offer years of worry-free performance. Suitable for painting if preferred.
- ***Integrated Screenguards:*** Screen on both fresh air and exhaust ports keeps unwanted debris and wildlife out.
- ***Standard Galvanized Connections:*** No special adapters are required. Just connect, insulate and you're done!
- ***Low Pressure Drop:*** No constrictive air passages to cut off air flow and unduly limit pipe length.
- ***Universal Fit: Nu-Air Factory Engineered*** to work with all Nu-Air residential ventilation models, no need for multiple part numbers
- ***Available in:*** Available in 5" (p/n THA5) and 6" (p/n THA6) duct connections

**Consult local code*
