Arc Safe Cross-Chest Harness

Fall Arrest Products

Front attachment loops can be tucked away when not in use

Hip Loops for Work Positioning

Standard Features:

- The ArcSafe harness is SEI-certified to the requirements of the ASTM F887-05 standard for arc flash protection up to 40 cal/cm²
- Nylon web loop attachment points
- Reduce overall harness weight
- Reduce metallic components
- Meets all applicable OSHA regulations and ANSI Z359.1 & A10.32 standards
- Certified to CSA Z259.10-M90 classes A, D, L, P
- Y-shaped back web loop locator pad
- Allows for effortless adjustment of the back web loop
- Provides comfort by moving the webbing away from the wearer's neck
- Color-coded torso straps to simplify donning
- Downward-adjusting torso straps to ease adjustment
- Optional integral shock-absorber

Arc Flash Poster

Highlights the common causes of arc flash and provides safe work practices and personal protection equipment requirements. Full-color printing and eye-catching graphics for optimum visual impact.

Circuit Breakers

From Schneider Electric

Masterpact arc flash circuit breakers provide arc flash protection without fuses, using breakthrough technology exclusive to the industry.

Retrofit Solutions

Retrofit existing low voltage power circuit breakers using

the new arc flash Masterpact NW or NT retrofit and/or direct replacement products. Source Atlantic offers Schneider's direct replacement breakers for most manufacturer's low and medium voltage breakers.

New Equipment Solutions

When designing a new system, contact your Source Atlantic product specialist to help with the specification of our new Square D Powerzone 4 low voltage switchgear, which can include Masterpact NW or NT arc flash branch circuit breakers.
