

Subject: Enhanced Welder Apprentice Training Initiative (EWAT) information session and discussion

On June 5, the Nova Scotia Apprenticeship Agency will be hosting an information session on the Enhance Welder Apprentice Training (EWAT) in our 3rd boardroom on 1256 Barrington Street in Halifax.

Mr. Dan Tadic, Executive Director of the Canadian Welding Bureau (CBW) will be in Halifax at offices to share details of the program, how to get involved and answer questions. A light lunch will be served.

As the leader of an industry organization we are asking you to both accept this invitation and assist us by forwarding the invitation to your employers/stakeholders/members who have an interest in the hiring and training of apprentices in the welding trade so they can participate. Accepting the invitation will confirm attendance. In order to make the necessary arrangements we are asking for replies by May 29, 2018.

The next 10 years' will present tremendous opportunities for welding in Nova Scotia in both the Construction and Industrial Manufacturing Sectors. The enclosed attachment will give you a short overview of EWAT. Many thanks for your support and assistance, hope to see you there.
